

Evgenii Gulev

Frontend Developer · Vue.js · Nuxt.js · JavaScript · HTML & CSS

+420 727 998 582 · egulev.alt@gmail.com · github.com/EvgeniiGulev · Czech Republic (EU)

Professional Summary

Frontend Developer with 2+ years of professional experience building responsive, production-ready web applications. Proficient in Vue.js, Nuxt.js, JavaScript (ES6+), HTML5, and CSS3/Sass. Comfortable working end-to-end from Figma designs to deployed features, integrating REST APIs, and maintaining clean, modular codebases. Available to work with Vue, React, or vanilla HTML/CSS stacks.

Technical Skills

Frontend: Vue.js, Nuxt.js, React (familiar), JavaScript (ES6+), HTML5, CSS3, Sass

APIs & Backend: REST API integration, Node.js (basic)

CMS: WordPress — theme development & customisation

Tooling: Git, GitHub, Figma, VS Code

Practices: Responsive design, cross-browser compatibility, modular CSS, accessibility, performance optimisation

Professional Experience

Frontend Developer | [GoBot LLC](#)

February 2024 – March 2026 (2 yrs 2 mos) • Remote

- Delivered responsive Vue.js and Nuxt.js web applications from design to production.
- Built and maintained WordPress themes with clean, reusable component architecture.
- Integrated REST APIs to power dynamic, data-driven UI features.
- Translated Figma mockups into pixel-accurate, accessible UI components.
- Managed code and releases using Git; participated in code review workflows.

Freelance Frontend Developer | [Independent Clients](#)

March 2025 – March 2026 • Remote

- Designed and built a full-stack crypto web application including a marketing landing page, authenticated user dashboard, transaction history, and real-time crypto conversion — built with React and Sass.
- Developed a cross-platform crypto wallet mobile app in React Native (Expo) with Tailwind CSS, featuring full wallet functionality including balance tracking, send/receive flows, and transaction history.
- Managed both projects independently from requirements gathering through to delivery, handling UI/UX decisions, API integration, and production deployment.

Software Developer | [Personal & Open-Source Projects](#)

2018 – November 2025 (7 yrs) • Self-directed

- Built and published multiple frontend projects on GitHub, focusing on usability and clean architecture.
- Practised modern JavaScript patterns, component design, and responsive UI development across varied project types.
